The school room was prettily decorated with flags, flowers and pictures. A program was rendered consisting of songs and recitations by the pupils. Mr. Miller, chairman of the school board, addressed the audience. Miss Mary E. Haskett, who, as teacher, has had a very successful term, leaves next week for Silver City, N. M.

Labor is at a premium and the farmers are wondering what will be done when the second cutting comes on with a large alfalfa crop in sight.

Berino has Yuleta beaten in alfalfa. Four feet is not uncommon here, and the Lucerne company has some cured and prepared for the fair this fall that measures four feet and seven inches, and the terminal buds are not in bloom.

NEW ENGLAND MAN ROASTS TARIFF

Former Republican, Elected to Congress From Massachusetts, Rails.

CALLS PAYNE
TARIFF BUNCO

Washington, D. C., May 21.—Representative Eugene N. Foss, the newly elected Democratic representative from Massachusetts, a former Republican and manufacturer, today signalled the beginning of his active participation in the house with a radical attack upon the Payne-Aldrich tariff.

He denounced the Republican policy of protection, flayed the Republican leaders, declared that the recent revision of the tariff to be "a deliberate bunco game from start to finish," pronounced in favor of reciprocity and demanded an "extra session of a new congress" at the earliest opportunity, to revise the tariff.

"The people are indeed demanding protection," said Mr. Foss, "but the protection they are demanding is protection from the Payne-Aldrich tariff."

The speaker announced himself as favoring the adoption of a tariff commission but he wanted the commission composed of non-partisan men, whose report would be made direct to congress rather than to the president.

"It cannot be denied," he said, "that the people have come to regard this whole 'revision' scheme of the Republican leaders—as planned in the last national campaign, and as promulgated in their platform, and as finally butchered in the special tariff session of congress—as an intentional and deliberate bunco game from start to finish."

Mr. Foss urged reciprocity with foreign nations as the proper middle ground between a protective tariff and a free trade.

"The 'stand-pat' hierarchy," he continued, "sowed the wind and we all are reaping the whirlwind."

"I recognize that the people have lost confidence in the Republican party and that they are no longer looking to them for an honest revision. The people have turned to the Democratic party. Now the responsibility of an honest revision of the tariff is up to the Democratic party with the aid of the insurgent and such other elements as will ally themselves with us."
